### **Wagner SprayTech Introduces Control Pro 130™ Power Tank Sprayer**

MINNEAPOLIS — March 18, 2019 — Wagner SprayTech, a market leader in advanced paint applicators, announced today the new Control Pro 130™ Power Tank Sprayer. It features Wagner's new High Efficiency Airless™ (HEA) gun and tip technology, enabling serious DIYers, handymen and property owners to complete interior and exterior paint jobs much faster and more efficiently than using rollers and brushes.

The High Efficiency Airless™ (HEA) gun and tip technology delivers a softer spray fan pattern, a more consistent finish, and produces up to 55 percent less overspray than conventional airless systems. Minimal overspray means less time and materials are required for taping and masking before spraying, most projects are completed using less paint, and clean-up is easy – simply rinse and flush the system.

Due to the design of the sprayer and the professional-grade gun and tip, the Control Pro 130 Power Tank can spray an eight-foot by 10-foot wall in as little as two minutes. It is a powerful sprayer that makes quick work of painting, while delivering a smooth, uniform finish on surfaces like walls, siding, decks, and fences.

The tank has a capacity of 1.5 gallons, so users can spray unthinned latex or oil-based paint, primer or stain continuously without stopping. It's also a gravity-fed tank, so priming and clean-up are quick and easy.

"The new Control Pro™ 130 Power Tank takes the intimidation out of airless spraying," said Jon Beaton, product director at Wagner. "For big jobs, it provides fast coverage with a soft, controllable fan pattern, making it easy for any user to get professional-grade results."

Key benefits and specs of the Wagner Control Pro 130 Power Tank includes:

- Pro-grade High Efficiency Airless™ (HEA) gun and tip
- Gravity-fed tank design for fast, no-mess priming and cleaning
- Forgiving, soft spray pattern for smooth and consistent coverage
- 55 percent less overspray than conventional airless systems
- Can spray one coat on eight-foot by 10-foot wall in as little as two minutes
- Sprays un-thinned latex or oil-based paints, primers and stains
- 1.5 gallon tank capacity; 25-foot hose for extended reach
- Built-in handles for easy moving and on-unit storage for gun and hose

This new Control Pro 130 Power Tank sprayer is available in-store at most Home Depots, [homedepot.com](http://homedepot.com), and on the Wagner SprayTech website [here](#). MSRP is \$229.99.
